

**THE UNIVERSITY OF TAMPERE
THE ACADEMIC ETHICS COMMITTEE OF THE
TAMPERE REGION**

Statement 59/2016 pursuant to the statement request 28/2016:

”Tutkimusprojekti (EU:n rahoittama) Factory2Fit, rahoitussopimus nr 723277/”Factory2Fit – Empowering and participatory adaptation of factory automation to fit for workers” (Johtava tutkija/Principal Scientist Eija Kaasinen, VTT Oy/Tampere).

Committee’s resolution: The academic ethics committee of the Tampere region has studied your statement request in its meeting held on December 12th 2016. The committee only gives statements about ready research plans. The committee states, however, that the consideration of ethical principles described in the research plan of the project “Factory2Fit – Empowering and participatory adaptation of factory automation to fit fo workers” provides a good basis for the drafting of research plans.

Tampere, December 12th 2016
